EXPERIENCE

Software Developer **Oct 2017 - July 2024**
Spectrum Communications-Austin, TX

- Created and maintained internal technical documentation and visual aids to support network performance monitoring tools.
- Translated complex networking concepts into concise internal support materials and job aids.
- Collaborated cross-functionally with engineering and operations teams to document monitoring features and write deployment guides.
- Authored release notes for product updates and performance tools, communicating key changes and known issues.
- Developed diagnostic algorithms and integrated API tools with clear internal documentation for troubleshooting and training use.

Front End Web Developer **Jan 2014 - Oct 2017**
AT&T-Austin, TX

- Developed and maintained HTML, CSS, and JavaScript for 40+ e-commerce sites, ensuring functionality and responsiveness.
- Updated site interfaces for promotions, providing timely and smooth user experiences.
- Created job aids for team onboarding and content updates, improving documentation accuracy and usability.

Front End Web Developer **Jan 2011 - Jan 2014**
VersaSuite-Austin, TX

- Collaborated with development team to maintain and enhance functionality across 8 websites.
- Created front-end solutions with HTML, CSS, and JavaScript to meet specific project needs.
- Delivered new web solutions with accompanying technical notes, improving support and alignment with client expectations.
